Preface	III
Dedication.....	VIII
Contents	XI
1 Industrial Revolution and technology in the 19th century	1
2 Fatigue of components before Wöhler's time	5
3 August Wöhler - Founder of fatigue strength research.....	17
3.1 The biography of Wöhler.....	17
3.2 Notes on the biography of Wöhler.....	31
3.3 Wöhler's five publications on fatigue and notes on his testing machines	47
3.4 Wöhler's memorandum on the classification of materials	75
3.5 Further scientific publications.....	79
3.6 An appreciation of Wöhler's activities.....	81
4 A critical review of the history of fatigue research	93
5 Publications on Wöhler	111
5.1 Publications during Wöhler's lifetime.....	112
5.2 Publications from 1914 onwards.....	177
Bibliography.....	249
Appendix (copies)	263
I Wöhler's five publications from 1858 to 1870 (in copies)	265
II Wöhler's experiments on the strength of materials, Engineering 1867	
Wöhler's experiments on the „fatigue“ of metals, Engineering 1871	349
III Mann, J. Y.: The historical development of research on the fatigue of	
materials and structures, 1959.....	373
